PROFILE

Software Engineering undergraduate at University of Sri Jayewardenepura specializing in full-stack development, with hands-on experience building and deploying scalable web applications. Skilled in React, Spring Boot, and cloud-based systems, with a strong focus on clean architecture and problem-solving. Developed multiple real-world projects including an AI-powered business management system. Passionate about building reliable, production-ready software.

TECHNICAL SKILLS

Languages: Java, JavaScript
Front End: React, HTML5, CSS3, Tailwind CSS, Bootstrap
Back End: Spring Boot, Express.js
Database: MySQL
Tools & DevOps: Git, VS Code, IntelliJ IDEA, AWS

PROJECTS

SmartBiz – AI-Powered ERP System
biz.pasindubuddhima.me/ GitHub: github.com/bpasindu/erp-system.git

- Built a full-stack ERP-lite system to manage sales, inventory, and customers
- Integrated AI features for business insights, reports, and automated responses
- Implemented role-based access control and real-time data tracking
- Tech: React, React Native, Spring Boot, MySQL

English-Sinhala Dictionary – Bilingual Dictionary Web App
dict.pasindubuddhima.me/ GitHub: github.com/bpasindu/dictionary1.git

- Developed a bilingual dictionary with real-time API-based word lookup
- Added text-to-speech functionality for pronunciation
- Designed a clean, responsive UI for quick user interaction
- Tech: React

Online Quiz Application
quiz.pasindubuddhima.me/ GitHub: github.com/bpasindu/quiz-site.git

- Web-based quiz application with timer, real-time scoring, and user validation using JavaScript and Bootstrap.

Chocobyte – E-Commerce Web Application

GitHub: github.com/Rishanthan-R/ChocE_Moments.git

- Developed a full-stack e-commerce platform with product ordering and management
- Implemented real-time order tracking and admin analytics dashboard
- Collaborated in a team using Git and agile development practices
- Tech: React, MongoDB

Smart Property Finder – Property Listing & Discovery Platform
GitHub: github.com/HashanHirantha/GP_one_year_project.git

- Built a property listing platform for searching rental and sale properties
- Integrated broker connectivity for direct user-agent interaction
- Implemented real-time queries and responsive UI
- Tech: React, Supabase

EXPERIENCE

Full Stack Developer Trainee – ACPT (Jul 2025 – Present)
• Developed full-stack applications using React and Spring Boot
• Designed REST APIs and managed MySQL databases
• Practiced version control, debugging, and collaborative workflows

---

EDUCATION

B.Comp. Hons. in Software Engineering – University of Sri Jayewardenepura, Sri Lanka| 2024 – Present
Diploma in Software Engineering – ACPT, Wadduwa | 2025-2026
Diploma in English – ESOFT Metro Campus | 2024

SOFT SKILLS

Problem-Solving, Communication, Adaptability, Creativity, Learning Ability, Attention to Detail

---

EXTRA-CURRICULAR ACTIVITIES

IEEE Student Branch – USJP – Organizing Committee Member of *Heenayata Saviyak 2.0*. Participate in tech events and coding competitions while networking with industry professionals.
IT Legacy – Organizing Committee Member of *Road To Legacy 2.0*. Connect and collaborate with tech enthusiasts and undergraduates across Sri Lanka to inspire technical growth.
Association of Computing Students – Organized a workshop for A/L ICT students at Bandaranayake College, bridging university expertise with school-level tech education.
Gavel Club – Develop public speaking, leadership, and communication skills through active participation and member mentoring.
Swimming – Regular practice to maintain fitness, endurance, and mental well-being.
